### Clues

Discover Niners on A9, I7 and A3 and an important chink on row 4 and the H file with 9 and 3 on each. The focus is then on segment 5, firstly as G5 and G6 must be 9 or 3 and G4 is 6 or 2. Further probing reveals 6 and 2 are complementary pairs on the G and H files.

I5 has to be 5 and this opens the safe. At the opposite end of the row, A5 must be a 3 and therefore A7 a 5. With so many clues now it is mostly case of filling the blanks.
