

What's New – Winter & Spring

Don't Change A Word!

The print run of this limited edition paperback was 250. I have only a few copies left. What staggers most readers is the expectation and norms of life in the early 1960s: stay determined, be resilient and grasp the hand of friendship - and good advice. The world then was so utterly different but human values transcend time. A realisation soon dawned that life is really about interdependence and values we hold.

Yet More Ideas

Writing about leadership & management has been simmering away on a hot stove. You must not rush, having spent months on the title and focus. Eureka! I am confident the book will sell. This is about the real world. Learn from those who blazed a trail and see how each era informed the next - leading to more seismic changes. This has triggered in my mind new ideas and innovative models – to be shared for free!

Trailblazers Learning From The Best

refreshing business ideas & new for old models

First, a serious health warning. Be ready to improve your motivation, well-being, quality of life - and fitness!

Trailblazers is for any enterprise - private, public sector, social and unpaid - from micro, small and medium to a few hundred people. Written for managers, team leaders and CEOs, it may interest others wishing to develop leadership skills.

Inspiring stories, studies and models explain what leadership & management is really about - to get the best from people and make a positive difference to an enterprise and prospects. Feel free to use these and ideas by the dozen but do adapt and tailor to suit. Copyright refers to my authorship, so please quote it.

Enjoy a train journey through time, stopping off at key stations. This long train has no final destination. The book will be printed by Ashley Press in Feb 2026.
